Ageel Alramadhan

Data Analyst | Python · SQL · Tableau · NLP

Hamburg, Germany · Open to Remote (Worldwide) · akeeldsr@gmail.com · Portfolio · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Data Analyst with a marketing background and hands-on training in SQL, Python, and Tableau (DEKRA-certified, AfA-approved 1221 UE program). Experienced in segmenting customers, building dashboards, and translating behavioral and transactional datasets into measurable business decisions. Delivered 6 end-to-end case studies covering NLP, time-series, geospatial, and revenue analysis. Increased one client's monthly organic clicks from 1.3K to 11K+ through data-informed content optimization.

TECHNICAL SKILLS

Languages & Querying: Python (Pandas, NumPy, SciPy, Matplotlib, spaCy, NLTK, Selenium), SQL (PostgreSQL — joins, aggregations, CTEs)
Visualization & BI: Tableau, Plotly, Streamlit, Excel (Pivot Tables, advanced formulas)
Analytics & Tracking: Google Analytics 4, Google Tag Manager, A/B testing, KPI design, cohort analysis
Methods: Behavioral segmentation, time-series analysis, statistical testing, NLP, NER, network analysis
Other: Git, JupyterLab, basic HTML/CSS/JS, Power BI (in progress)

PROFESSIONAL EXPERIENCE

Sr. Digital Marketing & Wordpress Manager — *AS Marketing Agency (Adriana Stein Marketing)* Oct 2023 – Sep 2024
Hamburg, Germany (Remote)

- Grew client's monthly organic clicks from 1.3K to 11K+ (8.5x) by analyzing search query patterns and restructuring product taxonomy based on behavioral data.
- Built KPI dashboards in GA4 and GTM tracking conversion funnels, page-level engagement, and channel attribution across multiple e-commerce clients.
- Performed exploratory data analysis on traffic, engagement, and conversion datasets to identify segmentation opportunities and inform A/B testing roadmaps.
- Translated raw analytics data into client-facing performance reports with clear recommendations for budget allocation and content prioritization.

Digital Marketing Specialist - Intern — *AS Marketing Agency* Oct 2021 – Oct 2023
Hamburg, Germany (Remote)

- Created and scheduled monthly social media content, supporting the company's ongoing content strategy and online presence.
- Monitored audience engagement by responding to comments and helping maintain active communication with followers.
- Reviewed post performance to identify useful insights, repeat successful content formats, and adjust future monthly content plans.

Freelance Digital Marketing Consultant — *Self-Employed* Dec 2019 – Present
Hamburg, Germany (Remote)

- Audit website performance and KPI dashboards for small-business clients; deliver data-informed recommendations on content, UX, and channel mix.
- Build custom analytics reporting in GA4 and Tableau tailored to each client's commercial objectives.

SELECTED PROJECTS

Full case studies at ageelalramadhan.github.io

- **20th Century Text Mining & NLP —** Web scraping, NER entity extraction, NetworkX visualization. Python · spaCy · NLTK · Selenium.
- **Instacart Market Basket Analysis —** Behavioral segmentation showing high-frequency customers drive disproportionate orders. Python · Pandas.
- **Rockbuster Strategy Analysis —** Multi-table SQL joins identifying geographic revenue concentration. PostgreSQL · Tableau.
- **Citi Bike NYC Dashboard (2022) —** Trip patterns, seasonality, station demand. Python · Plotly · Streamlit · Kepler.gl.
